- • • •

Umoja Youth Impact Hub (UYIH) is a dynamic community-based organization founded in 2024 by a coalition of young professionals, dedicated to transforming urban communities through sustainable development initiatives, healthcare access, and environmental stewardship. Based in Kenya, we operate at the intersection of community health, environmental sustainability, and youth empowerment.

# > Mission & Vision

In the heart of Narok, where challenges meet determination, we've witnessed the remarkable power of community-driven change. Since our founding, we have remained committed to a simple yet profound belief: that local solutions, led by passionate youth and supported by strategic partnerships, create the most sustainable pathways to community transformation. Our vision and mission aren't just statements—they represent the collective aspirations of thousands of community members working together for a healthier, greener, and more prosperous Community.

## Our Mission

To empower residents of underserved communities by providing access to healthcare, environmental solutions, and economic opportunities, thereby enhancing quality of life and promoting sustainable development.

## Our Vision

To foster healthier, more educated, and environmentally sustainable communities through integrated youth-led initiatives that create lasting positive change.

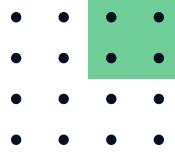

# > CORE VALUES

## Core Values

- **Community Ownership:** We believe sustainable change comes from within the community
- **Innovation:** We embrace creative solutions to address complex challenges
- **Integrity:** We uphold transparency and accountability in all our operations
- **Inclusion:** We ensure our initiatives serve all community members regardless of age, gender, or background
- **Environmental Stewardship:** We promote conservation and sustainable practices in all we do

# > OUR EXPERTISE

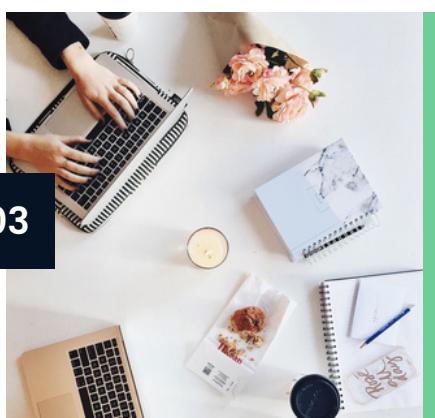

## Healthcare Access Initiatives

- Community medical camps reaching over 5,000 residents annually
- Health education programs focused on preventive care
- Mental health awareness campaigns and support services
- Healthcare referral networks with major Nairobi hospitals

## Environmental Projects

- Urban greening initiatives with 3,000+ trees planted since 2019
- School-based environmental clubs established in 15 local schools
- Waste management education and recycling programs
- Community clean-up drives engaging 1,000+ volunteers annually

## Youth Empowerment

- Skills development workshops benefiting 800+ youth
- Environmental entrepreneurship incubation programs
- Community leadership training
- Green business startup support
